Social Security Law in the European Union – EUSOSEL

The wider objective of the EUSOSEL project is to spread knowledge about European social values and social security frameworks among various target groups.

The project fulfils the following tasks:

- ▶ Developing and teaching the module “Social Security Law in the European Union” for BA law students (54 academic hours)
- ▶ Developing and teaching the professional training course “European Union practices of fighting poverty and social exclusion” for professionals, local and regional authorities
- ▶ Forming and running the research group on EU social law
- ▶ Developing and teaching the interactive training course “The European Union and its social law” for senior schoolchildren
- ▶ Organising and holding the conference “Social security law in the post Covid-19 period: Vision in the European Union and the Russian Federation”
